Stats performance

Season 2021-2022

In the season played at Watford, **Moussa Sissoko** excelled in defensive aspects and distribution more than in the attacking aspect.

Particularly noteworthy were his **% of defensive 1v1s**, **% of successful progressive passes**, and **passes to the final third**. He did not stand out in terms of the number of **shots** or **shots on target**.

However, it is worth mentioning that compared to players in his position, he had a high % of succ. **progressive runs**.

Minutes UEL	428	59.4%

Stats performance

Season 2022-2023

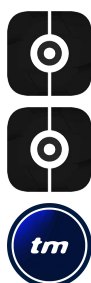

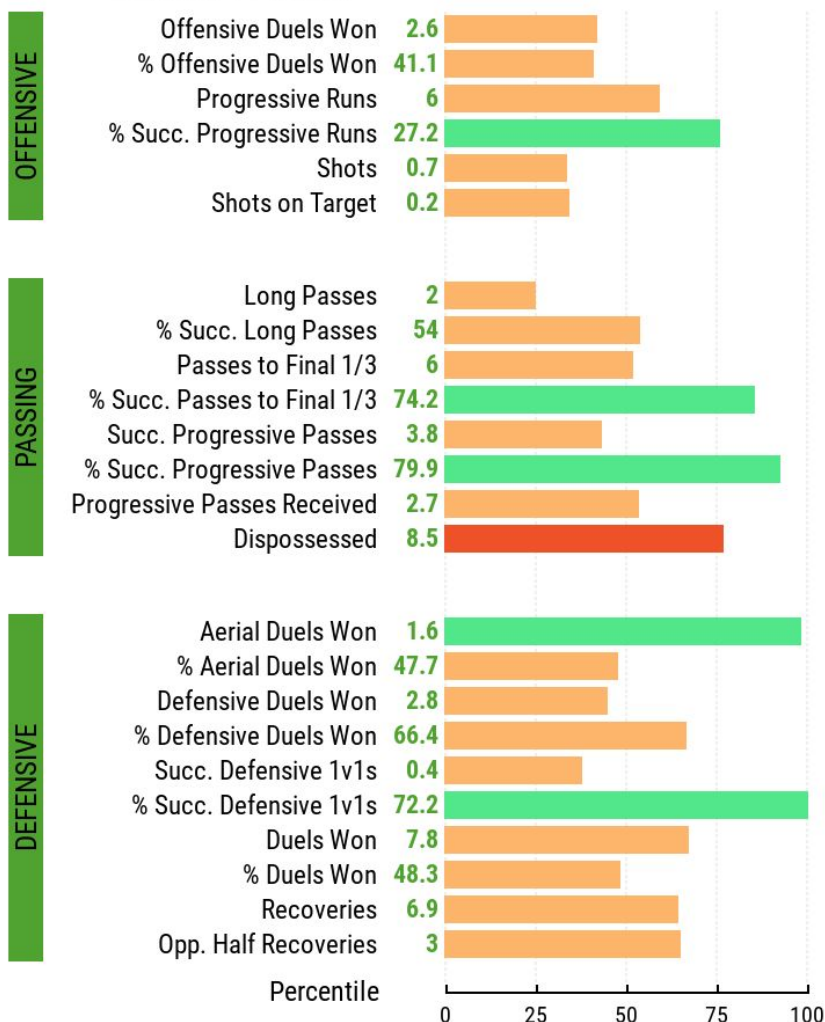

In the 2022/23 season, **Moussa Sissoko** has shown improvement in aerial duels compared to the previous season.

He continues to excel in % **defensive 1v1s**, % successful **progressive passes**, and % **passes to the final third**, although he has obtained lower percentiles in the % of succ. **long passes** and **dispossessed**.

In terms of attacking contributions, his best numbers still come from his % of progressive runs despite his % being nearly **20% lower** than the last season..

Adaptability

Moussa Sissoko 2021-2022

In addition to the **ELO**, **REAP**, and **Market Value**, our team of analysts and data scientists has developed a **novel adaptability index** to determine which club would best suit the playing style of a specific football player.

Based on **Moussa Sissoko's metrics** from the 2021-2022 season, we can conclude that **Nantes**, with a rating of **8.28**, was not among the top clubs in the five major leagues to which he would have adapted best. However, it was among the **top three options in Ligue 1**. These would have been the best choices for him:

Profitability

Moussa Sissoko

BeSoccer Pro's team of **data scientists** has created an algorithm that takes into account a player's **age**, remaining **contract time**, **transfer cost**, current **market value**, number of **matches** played for the club, and **seasons** with the team. This algorithm is capable of determining whether the player has been economically amortized or not, the difficulty of finding a short-term replacement, and whether the player should be renewed or transferred.

In the case of **Moussa Sissoko**, at **33 years old**, el **Nantes** should consider the option of keeping him in the team in the short term, at least until they find a suitable replacement.

ELO

What is the ELO?
It is the value that determines the level of a player. It is calculated taking into account diverse variables: match difficulty, opponents, competitions, impact in high pressure moments, goals and decisive assists, states of form...

REAP

What is the REAP?
It is a value that compares the performance of the player with others like him/her (players of similar age, position and leagues). We thus find out the profiles that are above average than what is expected of a determined player at a specific age.

Market Value

What is the Market Value?
It is a mechanism that determines the value of a player in financial terms but after combining relative factors to sporting performance, transfer possibilities, good health/absence of injuries and business generation with sponsorship contracts.

Potential

What is the Potential?
It is an estimation of the maximum ELO possible that a player can reach according to his/her particular performance in a precise moment of his/her career, and the years left that the player in question has ahead of him/her.
