## **ELO**

What is the ELO?  
It is the value that determines the level of a player. It is calculated taking into account diverse variables: match difficulty, opponents, competitions, impact in high pressure moments, goals and decisive assists, states of form...

## **REAP**

What is the REAP?  
It is a value that compares the performance of the player with others like him/her (players of similar age, position and leagues). We thus find out the profiles that are above average than what is expected of a determined player at a specific age.

## **Market Value**

What is the Market Value?  
It is a mechanism that determines the value of a player in financial terms but after combining relative factors to sporting performance, transfer possibilities, good health/absence of injuries and business generation with sponsorship contracts.

## **Potential**

What is the Potential?  
It is an estimation of the maximum ELO possible that a player can reach according to his/her particular performance in a precise moment of his/her career, and the years left that the player in question has ahead of him/her.

**FOOTBALL TURNED INTO STATS**
