

AFRICA CUP OF NATIONS

HIGHLIGHTED PLAYERS

SCOUTING REPORT

Searching criteria

The following report was prepared by **BeSoccer Pro's** Recruitment & Data Analysis team to provide a deeper understanding of players who performed exceptionally well in the **Africa Cup of Nations (AFCON) 2025**, being this is a great opportunity to follow them up.

The shortlist has been made based on the following criteria:

- They participated **AFCON** during the 2025 year.
- **+300 minutes** earned
- Players born from **1989 onwards**

BeSoccer Pro's own Performance Indicators have been weighed up over those players who participated from the **beginning of the tournament** (12/21/2025) to the final match (01/18/2026). All of them have been taken into account.

A 4-3-3 field diagram has been displayed to place our Top-3 choices per position, sorted by **ELO**, from **highest to lowest** score. Players are shown by **position** (goalkeepers, centre-backs, full-backs, defensive midfielders, central midfielders, attacking midfielders, wingers and centre-forwards) and by field channel; from the right one to the left one.

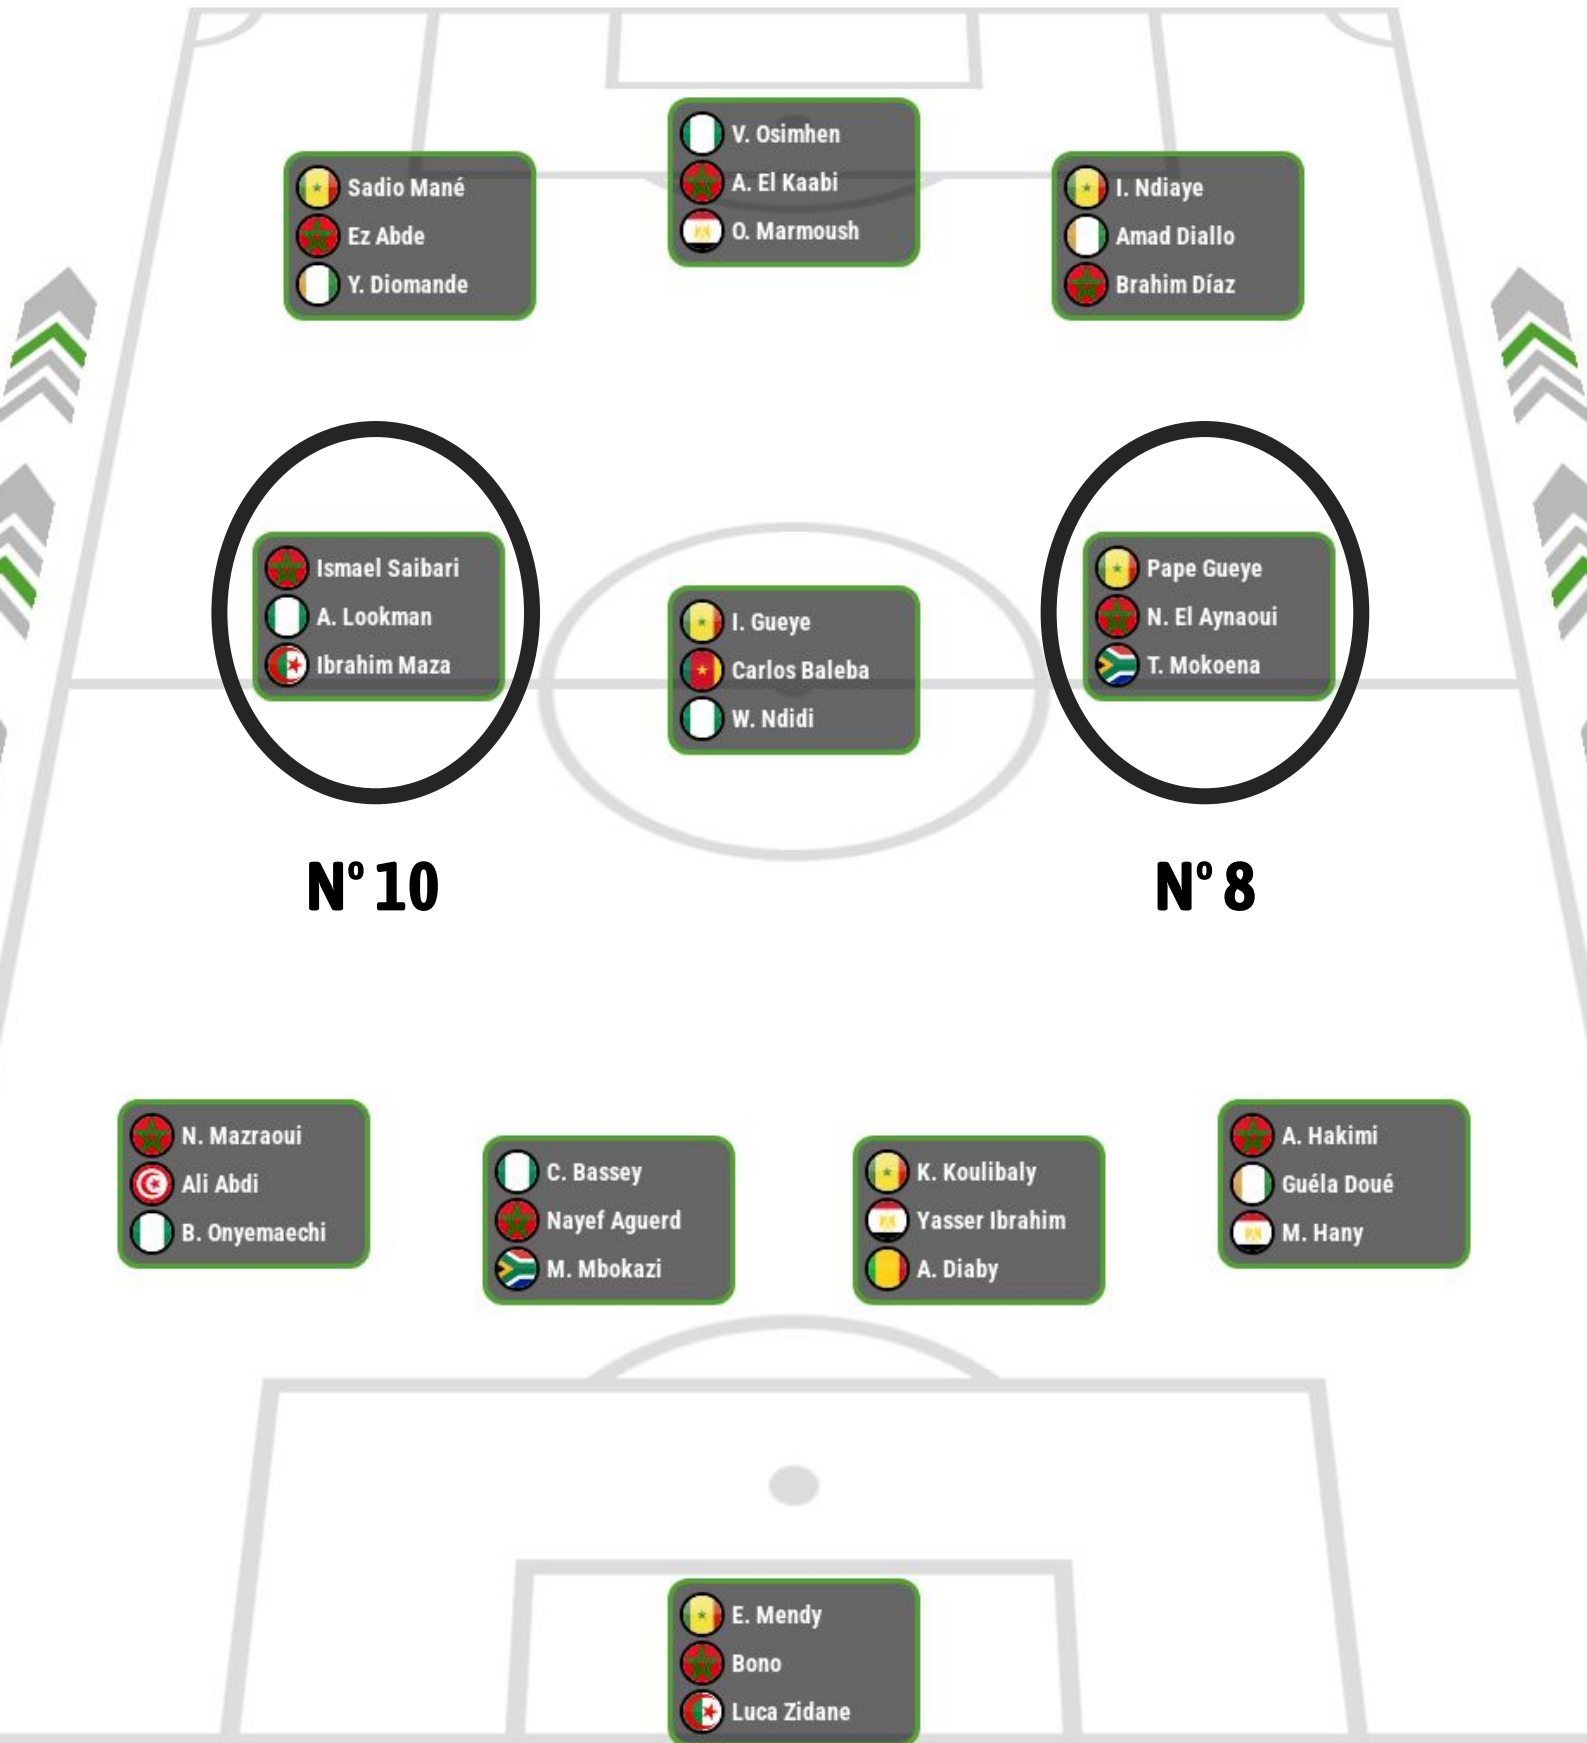

We highlighted those players who present a more **interesting profile (ELO and REAP)**. Showing a summary of their **basic data** (matches and minutes played, goals...), as well as a **statistical summary of metrics** that show the player's **virtues** (eventing) in terms of **percentile**, his action **range on the field of play** and its effectiveness in **specific key actions**.

Secondly, both the **basic data** of the season and other data, such as date of birth, skillful leg or height, etc, as well as the **career of the players** to date have been displayed for consultation.

Eventually, players' performance at every single position will be compared to each other through the **ELO evolution**.

ELO

What is the ELO?
It is the value that determines the level of a player. It is calculated taking into account diverse variables: match difficulty, opponents, competitions, impact in high pressure moments, goals and decisive assists, states of form...

REAP

What is the REAP?
It is a value that compares the performance of the player with others like him/her (players of similar age, position and leagues). We thus find out the profiles that are above average than what is expected of a determined player at a specific age.

Market Value

What is the Market Value?
It is a mechanism that determines the value of a player in financial terms but after combining relative factors to sporting performance, transfer possibilities, good health/absence of injuries and business generation with sponsorship contracts.

Potential

What is the Potential?
It is an estimation of the maximum ELO possible that a player can reach according to his/her particular performance in a precise moment of his/her career, and the years left that the player in question has ahead of him/her.
